

WELCOME TO *ANTHROCON*

IMMUNIZATION CHECK

PLEASE HAVE ID AND NECESSARY PROOF READY

Anyone who wishes to attend Anthrocon and is a member of an age group for which such vaccines are approved must show proof of vaccination against COVID-19 before being permitted entry. Such proof must demonstrate:

- The requisite number of doses of a vaccine that has been approved by the US FDA, World Health Organization, or other internationally-recognized health authority, have been administered to the attendee at least two weeks prior to receiving an attendance badge. This means **you must be fully vaccinated no later than June 16th, 2022.**
- Proof may be presented in the form of a paper vaccine card or a digital facsimile, such as a clear photograph or "vaccine passport" app.

As an alternative to proof of vaccination, an attendee may show proof of a negative PCR test for COVID-19 administered no more than 72 hours prior to receiving an attendance badge, or a negative antigen test administered no more than 24 hours prior to receiving an attendance badge. Note that only proctored antigen tests can be accepted. These are tests that are witnessed by a certified professional via a cell phone app, and which provide documentation of results.
